Cresswell & others unidentified, mostly pencil one in green-ink. 9x11cm. £400-500

Lot 102

102. **Rotary Aero-Engine Car Mascot**, A fine & very large early radiator embellishment c1912; Of cast aluminium manufacture with excellent detail to six-cylinder motor, having integral hub bearing and also with electrical illumination to two opposing cylinders, by the Anglo Machine Manufacturing Company New York; complete with original fixing-clamp & wiring; well-mounted for display on a stepped bakelite plinth surmounted by silver-plated pilot-figure in face-mask helmet & goggles. 31cm dia. £900-1200

104. **WWI Imperial German Air Service Fokker EIII Eindekker model c1914/15**, A good artificer-built trench-art model of the German Scout of the early war years; of brass & copper construction with bracing-wires and undercarriage detail and rotating propeller and with hand-painted Balkan-cross insignia to upper-wing surfaces and tailplane. w/span 21cm. £250-350

99. **Monoplane Car Mascot**, A fine early 20thC radiator embellishment c1910; nickel-plated bronze of French origin depicting a stylised monoplane rising from a cloud-stem base, well-detailed with rotating propeller, helmeted pilot-figure to cockpit, incised detail to upper wing surface and roundels to underside, mounted upon a period bakelite & nickel-plated radiator-cap. £300-400

103. **De Havilland DH 80A Puss Moth Car Mascot c1930s**, A definitive special-order radiator embellishment representing the aeroplane reg. no. G-ABNC; of cold-painted & plated bronze commissioned from the manufacturers A. E. Lejeune Ltd for the second owner John Verney (Lord Willoughby de Broke) c1932. Willoughby de Broke was Chief Steward of the Jockey Club and used the machine to ferry himself from either his home at Kineton in Warwickshire, or from Sywell Aerodrome where it was mostly kept. Its history shows to have been originally delivered to Air Taxis at De Havillands at Stag Lane in June 1931 to registered Mrs Rhonnda Rankin for a European tour. In April 1932 it was brokered by Brian Lewis & Co at Heston to John Verney, who kept it until re-brokering it via Alan Muntz of Airwork Company also at Heston. In 1938 it was sold to Italy, and very soon moved again being registered in France as F-AQOR by which time Europe was embroiled in war. No record of it remains thereafter. At some point The Mascot appears to have been mounted upon the small cast bell which now accompanies it, which bears a relief crest-design believed to be of French origin. £450-550

105. **WWI RFC Sopwith Camel trench art model**, a good artificer-built model of the front line fighter of 1917/18; well crafted of brass with excellent detail including rotating propeller & rotary engine within nacelle-shroud, twin Vickers machine guns and with hand painted insignia and markings for No. 55 Squadron RFC c1917 £250-350

100. **Bleriot Car Mascot**, A rare early 20thC radiator embellishment c1909, representation of the first Cross-Channel flight monoplane; heavy cast-bronze with rotating propeller and mounted upon a period brass radiator-cap. W/span 16cm Length 20cm. £380-450

101. **Bleriot Car Mascot**, A fine, large & rare early 20thC radiator embellishment c1909, well-detailed open-frame fuselage with rotary-engine & propeller, spoked-wheels undercarriage & tail-wheel, mounted upon a period nickel-plated radiator-cap. W/span 23cm Length 26cm. £800-900

106. **WWI French Military Air Service monoplane car mascot c1914/15**; cast bronze manufacture with rotating propeller, wheeled undercarriage and with applied enamel roundels to upper-wing surfaces, mounted upon a polished mahogany display-base. W/span 13cm £150-250

Buyers Premium: 17.5% plus Value Added Tax making a total of 21% of the Hammer Price

## PART ONE OF THE RICHARD HOWARD COLLECTION OF MODEL BOATS AND PLANES

Sadly Richard passed away in 2016 and is greatly missed by everyone here at Special Auction Services. "If you knew Richard you would have been amazed by his enthusiasm, charm and fantastic personality. We are delighted to be offering part one of his collection to you. The collection has been amassed over many years at Beale Park and also at Richard's home. It is extremely diverse but really shows Richard's passion for boats, ships and other vessels." Neil Shuttleworth, Director at Special Auction Services said, "Richard was a great friend and over the years and there are not many people who leave such a lasting impression on you. I know that the collection will be well appreciated and sell well to enthusiasts".

We are delighted to dedicate this year's Transport Auction to the memory of Richard, and include Part One of his collection of Model and Toy Boats and Planes. Richard's collection is extremely large and diverse and within the auction there is a really good mix of various boats such as speed boats, pond yachts, sailing boats, river craft and navy ships, most of which are remote controlled. The plane section will include both civilian and military aircraft from small scale to large display models.

**PART ONE: THE RICHARD HOWARD  
COLLECTION OF MODEL BOATS**

403. A kit build model of a river paddle steam boat, 177cm long and 108cm on stand, titled Gascoigne (2) £100-200

## ABBREVIATED TERMS AND CONDITIONS

Please ensure you view the Full Terms & Conditions on our website prior

**Specialist Auctions Ltd Trading as Special Auction Services referred to as The Auctioneer and to include any person acting upon his authority.** In these Terms of Sale the words 'you', 'yours', etc. refer to you as the Buyer. The words "we", "us", etc. refer to the Auctioneer. English Law shall govern all transactions associated with this sale.

### **Conditions of Sale**

**Third Party Liability:** All persons on the premises of, or at a venue hired or borrowed by the Auctioneers are there upon their own risk. They shall have no claim against the Auctioneer in respect of any accident, injury or damage howsoever caused.

**Bidding procedures and the Buyer:** You must register your details with us before bidding and provide us with any requested proof of identity and billing information, in a form acceptable to us. You must also satisfy any security arrangements we have in place before entering the auction room to view or bid. We strongly recommend that you attend the auction in person. You are responsible for your decision to bid for a particular Lot. If you bid on a Lot, including by telephone and online bidding, or by placing a commission bid, we assume that you have carefully inspected the Lot and satisfied yourself regarding its condition and authenticity.

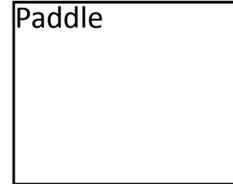

**The Purchase Price:** As Buyer, you will pay: a) the Hammer Price; b) a premium of 17.5% of the Hammer Price if bidding in the room, telephone bidding or leaving a commission bid; an additional 3% premium will be charged for all bidding via the online platform; c.) any artist's resale right royalty payable on the sale of the Lot; and d) any VAT due.

**VAT:** You shall be liable for the payment of any VAT applicable on the Hammer Price and premium due for a Lot. We will charge VAT at the current rate at the date of the auction. Items in our catalogue may be marked in the following ways: (\*) indicates that VAT is payable by the buyer on the hammer price as well as being an element in the buyer's premium. VAT will be chargeable at the standard rate (presently 20%). This imposition of VAT is likely to be because the seller is registered for VAT within the European Union and is not operating the Dealer's Margin Scheme or because VAT is due at 20% on importation into the UK. (\*\*) indicates that the lot has been imported from outside the European Union. [These lots are liable to the standard rate of VAT (currently 20%); in certain circumstances these lots will incur a reduced rate of VAT (5%) on the hammer price and buyer's premium]. The rate will be clearly indicated. Lots which do not have either of the above symbols have no VAT payable on the hammer price. This is because such lots are sold using the Auctioneers' Margin Scheme. **The VAT included within the premium is not recoverable as input tax.**

**Payment:** Immediately following your successful bid on a Lot you will pay to us the Total Amount Due within 7 days, by cash (maximum £10000), debit card or bank transfer. Following the day of the sale, we will send out invoices to all successful telephone, online and commission bidders via email or post. We will where ever possible include on the invoice a charge for packing and shipping the lots purchased. Packing is undertaken in house and shipment is made by Courier or Royal Mail. Insurance cover on shipments is not provided within this charge. We also reserve the right to ask the buyer to complete a disclaimer regarding this service prior to despatching the goods. Alternatively, you will (at your own expense) pay for and personally collect or arrange your own courier to collect any Lots that you have purchased. This must be undertaken no later than 7 days following the day of the auction. You may not claim or collect a Lot until you have paid for it. If you do not pay for or collect the Lot within this time period, you will be responsible for any reasonable removal, storage and insurance charges in relation to that Lot.

**Warranties:** The Seller warrants to us and to you that: the Seller is the true owner of the Lot for sale or is authorised by the true owner to offer and sell the lot at auction; the Seller is able to transfer good and marketable title to the Lot to you free from any third party rights or claims; and as far as the Seller is aware, the main characteristics of the Lot set out in the auction catalogue (as amended by any notice displayed in the saleroom or announced by the Auctioneer at the auction) are correct. If, after you have placed a successful bid and paid for a Lot, any of the warranties above are found not to be true, please notify us in writing. Neither we nor the Seller will be liable to pay you any sums over and above the Total Amount Due and we will not be responsible for any inaccuracies in the information provided by the Seller except as set out below.

**Descriptions and condition:** Our descriptions of the Lot will be based on: (a) information provided to us by the Seller of the Lot (for which we are not liable); and (ii) our opinion (although it is likely that we will not be able to carry out a detailed inspection of each Lot). Weights and measurements given are all estimates. We will give you a number of opportunities to view and inspect the Lots before the auction. You (and any independent consultants acting on your behalf) must satisfy yourself about the accuracy of any description of a Lot. We shall not be responsible for any failure by you or your consultants to properly inspect a Lot. Representations or statements by us as to authorship, genuineness, origin, date, age, provenance, condition or estimated selling price involve matters of opinion. We undertake that any such opinion will be honestly and reasonably held and accept liability for opinions given negligently or fraudulently. Please note that Lots (in particular second-hand Lots) are unlikely to be in perfect condition. Lots are sold "as is" (i.e. as you see them at the time of the auction). Neither we nor the Seller accept any liability for the condition of second-hand Lots or for any condition issues affecting a Lot if such issues are included in the description of a Lot in the auction catalogue (or in any saleroom notice) and/ or which the inspection of a Lot by the Buyer ought to have revealed. We will give indications of provenance where stated by sellers. It is imperative that potential buyers or their Agents inspect lots that interest them prior to the auction. Purchases of autographed materials and works are made at the risk of the purchaser. Subject to our Terms and Conditions we cannot accept returns on these items.
