### Grandma's Teddy Bear Museum 9th September at 11:00

"It's time to part with some of my collection, I have collected quickly over 8 years and now have over 600 bears, my taste has changed. I now have a much clearer vision of how my collection should look. I love all of my bears, but have simply run out of room and want to cut back a large percentage, so I can re-grow it with my current knowledge. So, it's time to call the auctioneers in, I can't think of any safer hands to pass them onto than my teddy friend, Daniel Agnew of Special Auction Services to send them all to their new homes. I think it would be great fun and I will enjoy seeing my beloved bears finding new owners."

"I first started collecting teddy bears because my daughter-in-law bought me a teddy bear and the Teddy Bear Encyclopaedia for a milestone birthday, which sparked an interest and I started looking at antique bear on-line. After that things go slightly out of hand!" The private museum displayed in a 16th century barn in Buckinghamshire is like walking into a time warp! From antique bears involved in country cottage industries of spinning and weaving together with village blacksmiths, wheelwrights and teddy bear factories through a complete range to artist bears at the circus! A surprise every time you go!

There's still time to view **10:00-13:00 Monday-Saturday** for viewings. Please call the office to book an appointment **01635 580595**
